

CULTURAL RESOURCES PROGRAMMATIC AGREEMENT (PA)

- A Programmatic Agreement (PA) is a program alternative to Section 106 that can stipulate mitigation measures and treatment of historic properties even when effects on historic properties cannot be fully determined prior to the undertaking, e.g., additional surveys needed at Army Training Areas on Oahu and at PTA (Hawaii Island) before effects to historic properties can be determined.
- PA is developed in consultation with various state, federal, and private organizations, as well as Native Hawaiian Organizations, interested parties, and the public.
- PA will identify measures to avoid, minimize and mitigate potential effects to historic properties as well as resolve adverse effects through mitigation.
